1. The Original

The Kepler University Hospital was founded on 31.12.2015 with the merger of the three renowned and traditional Linz hospitals, AKh Linz, Provincial Women's and Children's Hospital Linz and the State Neurological Clinic Wagner-Jauregg. The reason for the merger was the founding of a medical faculty at the Johannes Kepler University Linz. With more than 1,800 beds, the Kepler University Hospital is Austria's second largest hospital and the central healthcare provider in Upper Austria.

2. The scenery

The scene is based on publicly available information.
The buildings come from the Google 3D Warehouse.
