4. Installation

Just copy the folder "LKH Hainburg 2.0 " in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:

```
<X-Plane-Verzeichnis>/  
    Custom Scenery /  
        LKH Hainburg 2.0 /  
            Earth nav data and others)
```

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.
