Austrian X-Plane Design Group

1. The original

This small airfield is located about 21 km northeast of Mistelbach and about 14.5 km east of Poysdorf. Breclav is about 10.5 km north-northeast. It is operated by the "Flugsportgruppe Weinviertel" www.loar.at.

2. The Scenery

The scenery is photorealistic on the basis of photos taken on site. In addition to the grass runway and the buildings at the airfield, the area is so far shown helpful for VFR flight. If you fly in deeply, you will find the oil pumps, forests, etc. listed in the approach chart. Since the space is open only in daylight, the barrier closes at the entrance at night.

Charts

enclosed.

3. Functions (Summary)

- Photorealistic Scenery
- Compatible to "OSM+autogen" or. "Osm_Austria_beta5.0" from PilotBalu
- • realistic ground texture at the airfield
- real lighting, individual built
- night textures and lighting *)

*) X-Plane 10, 11 only!

Austrian X-Plane Design Group

4. Installation

Just copy the folder " LOAR Altlichtenwarth 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:

```
<X-Plane-Verzeichnis>/  
    Custom Scenery /  
        LOAR Altlichtenwarth 2.0/  
            Earth nav data and others)
```

and restart X-Plane.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Required Software

X-Plane® Version 11.10+, 10.30+ or 9.7

7. Comments for the X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with XP10.30RC1).

8. Used Libraries

none

Austrian X-Plane Design Group

9. Recommended addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download from: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

or

Osm Austria beta 5.0 by PilotBalu

Download from: <http://simheaven.com/experimental/>

HD Mesh Scenery v2 by alpilotx

Download from: <http://www.alpilotx.net/downloads/x-plane-10-hd-scenery-mesh-v2/>

Europe Library von LyAvain,

Download from: http://simheaven.com/?page_id=14

to see European instead of US buildings.
