### 4. Installation

Just copy the folder "LOLF Freistadt 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

#### directory structure:

```
<X-Plane-directory>/
  Custom Scenery /
    LOLF Freistadt 2.0/

### 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio

### 6. Necessary Software

X-Plane® Version 11.11+, 10.30+ or 9.7

### 7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.25.

### 8. Used libraries

none

### 9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: [http://simheaven.com/?page\\_id=23](http://simheaven.com/?page_id=23)

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe Library from LyAvain,

Download: [http://simheaven.com/?page\\_id=14](http://simheaven.com/?page_id=14)

to see European instead of US buildings.
