### 2. The Scenery

The scenery is based on open for public information and maps. The objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10, 11 only).

#### Charts

none

### 3. Functions (summary)

- Photorealistic scenery
- Parkpositions, taxiways, runways, etc. conform to the charts
- Different buildings in the vicinity of the airport
- Night textures and realistic lightning \*)
- ATC taxilines for AI traffic \*)

\*) X-Plane 10, 11 only!

### 4. Installation

Just copy the folder "LOLK Ried Kirchheim 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

#### directory structure:

```
<X-Plane-directory>/
  Custom Scenery /
    LOLK Ried Kirchheim 2.0/
      Earth nav data and others)
```

and restart X-Plane.

### 5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

### 6. Necessary Software

X-Plane® Version 11.11+, 10.30+ or 9.7

### 7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which were taken with X-Plane 10.25.

### 8. Used libraries

none

### 9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):
