2. The Scenery

The scenery is based on open for public information and maps. The objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10, 11 only).

Charts

are included in this package.

3. Functions (summary)

- Photorealistic scenery
- Parkpositions, taxiways, runways, etc. conform to the charts
- Different buildings in the vicinity of the airport
- Night textures and realistic lightning
- ATC taxilines for AI traffic

4. Installation

Just copy the folder "LOLW Wels 2.0" in the compressed file after unpacking in the "Custom Scenery" - folder.

directory structure:

```
<X-Plane-Folder>/
  Custom Scenery /
    LOLW Wels 2.0/
      Earth nav data and others)
```

and restart X-Plane.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio.

6. Necessary Software

X-Plane® Version 10 & 11.x

7. Used libraries

none

8. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe Library from LyAvain,

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.

9. Credits
