1. The Original

Tower frequency: 130.15, 123.25 military

Runway-direction: 09/27, 04/22, 14L/32R, 14R/32L, 18R/36L, 18L/36R

Runway: 840x30m grass, 1500x45m grass, 940x30 m grass,
870 x30m grass, 1120x45m grass.

MSL: 285 m

The airport LOXN is located NW of Wiener Neustadt and you can reach it very easy from the Highway A2, just use exit Wollersdorf or you can use the S-Bahn as well. Wiener Neustadt West LOXN was original used as a big military Airfield. It was one of the first Airfields ever built and is still the biggest grasfield in whole Europe. Today there is no big military action going on at this airfield, it is only used for parachute training purposes. That means there is a big opportunity for a lot of glider Pilots, to use this airport located just 30 miles South of Vienna.

2. The Scenery

The scenery is based on open for public information and maps. The objects were completely rebuilt.

The package includes night textures and realistic lighting (X-Plane 10 only).

Charts

are included in this package.

Austrian X-Plane Design Group

3. Functions (summary)

- Photorealistic scenery
- Parkpositions, taxiways, runways, etc. conform to the charts
- Different buildings in the vicinity of the airport
- Night textures and realistic lightning

*)

*) X-Plane 10 only!

4. Installation

Simply unpack the folder and copy the content into your 'custom scenery' folder of X-Plane. Restart X-Plane and enjoy.

5. Recommended settings

To visualize all light effects, HDR should be activated. The higher the settings for "texture resolution" and "airport detail" the better the quality of the scenery but the more affect on the FPS ratio. **"runways follow terrain contours" has to be OFF!**

6. Necessary Software

X-Plane® Version 10.30+ or 9.7

7. Comments for X-Plane 9 version

Unfortunately some functions of the scenery must be disabled for X-Plane 9 and therefore it will not look like on the pictures which where taken with X-Plane 10.25.

Austrian X-Plane Design Group

8. Used libraries

none

9. Recommended Addons

Although the scenery will work without any addons, we recommend to use the following ones for the whole experience (pictures taken with addons installed):

OSM Europe osm+autogen by PilotBalu,

Download: http://simheaven.com/?page_id=23

to have streets and buildings from OSM and autogen where is no coverage of such data.

Europe Library from LyAvain,

Download: http://simheaven.com/?page_id=14

to see European instead of US buildings.

10. Credits

LAMINAR RESEARCH®	for X-Plane®
Ben Supnik	for WED (Version 1.2.1r3 used)
uwespeed	cars
leovox01	Maintenance Equipment
Stefan Fasan	Airport pictures and test.

11. Betatester-Team

DanielMan, greuff, PAA196, PetJedi, oe3gsu
And all members of the AXDG team.
